DEDICATION.

THE booklet being issued, needs, we think, no apology, as it speaks for itself; but like any other good work it may need a little introduction. It seems right that the event which it advertises and commemorates should receive the attention which this work will attract to it. THE ASTORIA ANNUAL REGATTA is a memory in the minds of all who have ever tested its hospitality. It is a beacon in the distance for which they are steering as the days go by, which bring its cheer and comraderie nearer to them. To our friends who have graced our festivities from year to year, to all those who love a "wet sheet and flowing sea," to our patrons and to the glorious sport we here recognize, this book is dedicated with the hope that it may be found a pleasing souvenir of the Astoria Sixth Annual Regatta.

Respectfully,

THE REGATTA COMMITTEE.

THE ASTORIA REGATTA.

G. C. FULTON, CHAIRMAN.

THE desire for recreation, for rest, for change of environment and of occupation is a natural and universal longing among men. The ordinary routine of business life, with its plodding and many stringent obligations becomes ardorous if without certain periods of rest; hence it is eminently proper and fitting that the masses as a unit, or the individual himself, must conform to this seeming law of nature and allow a liberal time for enjoyment.

The play or recreation instinct in man is as old as man himself and has proved a prime factor in his development. The ancient Greeks have been for ages considered as symbolical of the highest type of physical manhood, and their Olympic games have been from time immemorial prominent events in their history. In our own country particular localities have set aside certain days in which they engage in festivities, fetes, carnivals, etc. Denver, Col., has its annual festival of mountain and plain; Los Angeles, Cal., the land of roses and fair women, has its flower carnival; New Orleans, in the far south, its Mardi Gras, and last but by no means least, Astoria has an Annual Regatta.

That natural environment must determine the character of the festival in any particular place is as a matter of fact acceptable without comment and what can be more inspiring to the lover of aquatics than to gaze on our magnificent harbor and observe those ideal conditions which nature so generously places at our disposal.

For a number of years, previous to the first Annual Regatta, it was customary among the owners of Whitehall boats, and also among the fishing craft, to engage in racing in somewhat of a desultory manner, in order that the alleged superiority, of particular boats might be ascertained.

Early History of the Regatta

Old timers will remember the enthusiasm aroused by a Whitehall race, the sail spread of which would put to shame a modern cup defender. The course covered formerly was much greater in extent than at present, extending as far west as Sand Island and was covered but once. The eagerness displayed by enthusiasts on the old Flavel wharf, when the boats were on the home stretch, demonstrated the intense rivalry that existed at the time. Such contests among local boat owners made up the early efforts toward using the beautiful expanse of water stretching away in front of Astoria, but no determined attempt was made to formulate any plan which would result in bringing together the boat owners in this vicinity in an annual meeting on the water until 1894.

HARRISON ALLEN, SEC.

To Mr. E. J. Smith, city editor of the Astorian in 1894, is given the credit of originating the Astoria Annual Regatta. Mr. Smith was an energetic worker, and found an able second in Mr. F. M. Gunn, secretary of the A. F. C., who at once laid the matter before the Board of Directors of the club and found that the scheme met their heartiest approval and their earnest co-operation. The name of the Astoria Football Club when identified with any legitimate enterprise is always synonymous with success, hence to the energy of this extremely popular organization which has done so much in fostering athletics and all legitimate sport in this community is to be given the honor of making a praiseworthy success of the first Annual Regatta.

While the first Annual Regatta was in every way a success, it was realized by the members of the Football Club and the citizens generally that the aim of all should be to enlarge and make the carnival not an Astoria affair, but a carnival in which the whole state would have an interest, and as a natural result the plans of the Second Annual Regatta were laid accordingly and the event was more extensively advertised.

The Astoria & Columbia River Railroad

Parallels the Willamette and Columbia Rivers from Portland to the sea; its roadbed, construction and equipment is not equaled on the Pacific Coast and not surpassed west of Chicago. Two trains each day affords a continuous ride in a luxurious parlor car or day coach from Portland to the seacoast in four hours, and to Astoria in three hours and thirty minutes. At the latter point connection is made with all Bay Boats and Coastwise Vessels.

THE LEADING PHOTOGRAPHER OF ASTORIA.

Growing Importance of the Astoria Regatta

The Astoria harbor is not only a beautiful expanse of water, but an ideal water course as well, which in the morning is smooth as a mill pond, thus affording ideal conditions for fast shell racing, while in the afternoon the ever present westerly winds make the sailing races beautiful as well as interesting events. Competing oarsmen from the Sound, British Columbia, Portland and San Francisco were not slow in realizing the natural advantages of our course, and as a result spectators during the '98 Regatta witnessed as fine an exhibition of shell and barge racing as can be found anywhere.

During this year, the extremely interesting method of choosing the queen by popular vote was introduced as a feature of the Regatta, the election resulted in Mrs. S. Normile, a charming and popular young matron of Astoria, being chosen to fulfill the many interesting duties of the high office.

The executive committee of 1898 to which is due great praise for their efforts in making the '98 Regatta a success was as follows: Wm. G. Gosslin, Pres.; W. L. Robb, Sec.; E. C.Hughes, Treas.

Thus from a humble beginning has grown an annual carnival of which we may well be proud. At first planned as simply a local water carnival, it has, through the efforts of our citizens at home and aided by a kindly interest from various sections throughout the Northwest and California, grown to be an event in which the citizens of three states find an active interest.

During the present Regatta an effort will be made to form a coast association of oarsmen with the annual meeting to be held at Astoria during "Regatta Days" and may the effort meet with the earnest approval of all lovers of true amateur sport and the proposed new association prove a reality. The '99 Regatta promises to eclipse the efforts of all former years and the formation of a coast rowing association would undoubtedly prove the crowning event in the history of the Astoria Sixth Annual Regatta.

GENERAL RULES OF THE REGATTA.

The Regatta Committee have full power over all races. All questions arising in the sailing of various events shall be settled by the judges, and their decisions shall be based upon these rules so far as they will apply, and such decisions, if no appeal is made to the general committee, shall be final. The judges shall make reports of the results to the general committee of each day's races, within five hours from the ending of the last race, after which the secretary shall give to the owner of each winning boat, an order on the treasurer, approved by the chairman of the general committee, for prize won, if no appeal be made as above.

Rule 1. Measurements. Owners desiring to have their boats measured shall give notice at regatta headquarters, within a reasonable time before the first day of the regatta.

Rule 2. Entries. All entries must be made at regatta headquarters before the first day of the regatta. Entry fees for all sailing and rowing races, one dollar.

Rule 3. Prizes. No prize shall be awarded in any race unless two or more contestants start.

Rule 4. Classifications, Courses and Sails. Will be designated by the regatta committee in each days program.

Every sloop shall carry her private signal at the peak. A racing flag must also be carried by catboats at the masthead. Any sloop or catboat not complying with this rule, unless prevented by an accident occurring after starting, shall forfeit all claims to a prize.

Rule 5. Meeting. Boats going free must always give way to those by the wind. Boats on the starboard tack shall have the right-of-way. If two yachts are meeting end on, or nearly end on, so as to involve risk of collision, the helms of both shall be put to the port so that each may pass on the port side of each other.

Rule 6. Overtaking, Rounding, Etc. A boat overtaking another shall keep out of her way, but when rounding any buoy or vessel used to mark out the course, if two yachts are not clear of the mark, whether it be the lea or weather boat which is in danger of fouling it. No boat shall be considered clear of another, unless she is so much ahead as to give the other a free choice on which side she will pass. An overtaking boat shall not, however, be justified in attempting to estab-

lish an overlap, and thus force a passage between leading boat and the mark, after latter boat has altered her helm for purpose of rounding.

Rule 7. Obstructions to Sea Room. When passing any obstruction to sea room, should boats not be clear of each other, the outside boat or boats must give room to the boat in danger of fouling such obstruction, whether it be the lee or weather boat; provided always an overlap has been established before an obstruction is actually reached.

Rule 8. Luffing and Bearing Away. A boat may luff as she pleases to prevent another boat passing to windward, but must not bear away out of her course to hinder the other passing to windward. The lee side to be considered that on which the leading boat of the two carries her main boom. The overtaking boat, if to leeward, must not luff until she has drawn clear ahead of the boat she has overtaken.

Rule 9. Close Hauled Approaching Shore. If two boats are standing toward a shore or shoal, or toward any buoy, boat or vessel, and the boat to leeward is likely to run aground, or foul of such buoy, boat or vessel (except as provided in rule 6), and is not able to tack without coming into collision with the boat to windward, the latter shall at once tack on being hailed to do so by the person sailing the leeward boat, who must see th own boat tacks at the same time.

Rule 10. Fouling. Each boat must fairly round the course and must not touch any buoy or vessel used to mark it out, but shall not be disqualified if wrongfully compelled to do so by another boat. If a boat, in consequence of her neglect of any of these rules, shall foul another boat or compel other boats to foul, she shall forfeit all claim to the prize, and shall pay all damages.

This rule applies to fishing boats (anchor start) only after they have rounded the first buoy, no foul being allowed from the start to the first buoy.

Rule 11. Propulsion and Sounding. No means of propulsion, except sails shall be allowed. Nothing but a hand line and lead shall be used for sounding during a race.

Rule 12. Protests. Any boat desiring to protest must at once show the regatta signal conspiciously in the rigging, and keep it flying until she has crossed the line or has entered her protest. Protests must be made in writing, within two hours after the conclusion of the race.

Rule 13. Sails. Scow schooners and cannery tenders will use only their working sails. Fish boat race, working sails, sails limited to 46 yards mainsail and 26 stunsail. In fish boat race, racing, no limit to sails. Winner of first prize in the fishboat race, (sailing) first day will not be allowed to participate in the second day's race.

Rule 14. Starting. Five minutes before the time for starting of each race a preparatory gun will be fired from the flagship. The second gun is for starting and any boat failing to cross the line within 5 minutes after the second gun, shall be disqualified.
